SUMMARY

A graduate of the Associate Degree in Information Technology program at Brawijaya University with an interest in data analysis, particularly in data processing, analysis, and presentation to support decision-making. Has experience in data processing using Microsoft Excel, as well as database design and integration. Additionally, I possess skills in Web Development and UI/UX Design, with experience using technologies such as Laravel, React, and Figma. I am highly motivated to learn, adaptable to technological advancements, and eager to develop my skills in data and digital solution development.
